Category: Business Operations

Subcategory: Sale of Business

1. **Question:** If an owner is in the process of selling the business that received the PPP loan, what will happen if the loan is not forgiven prior to the close of the sale?

Answer: It depends on how the purchase agreement was structured.

Subcategory: Open/Close

2. **Question:** If a business has been forced to close due to “shelter in place” orders, are borrowers required to continue to pay employees even though they are unable to operate their business?

Answer: Borrowers are not required to continue to pay employees. The borrower does have up to 24 weeks from the date of the loan disbursement to use the funds for payroll and other eligible costs. If payroll costs incurred are less than 60% of the PPP loan amount, the forgiveness amount will be reduced proportionately.

However, the Paycheck Protection Flexibility Act expands the Safe Harbor for rehiring employees by allowing that forgiveness will not be affected by a reduction in employees if the borrower is able to document its inability to return to the same level of business activity as it was operating at before February 15, 2020, due to compliance with Covid-19 requirements, or its inability to rehire individuals who were employees on February 15, 2020, as well as its inability to hire similarly qualified employees for unfilled positions on or before December 31, 2020.

3. **Question:** If a business has been forced to close due to the stay at home order, does the 8 week or 24 week period begin once the business is able to re-open for business?

Answer: No. You have only up to 24 weeks from the date of first disbursement to use the loan funds.

Category: Documentation

Subcategory: Covered Period

4. **Question:** If a borrower's 8-week Covered Period or Alternative Payroll Covered Period has already concluded, how should they go about extending their Covered Period or Alternative Payroll Covered Period to a maximum of 24 weeks?

Answer: The extension of the Covered Period due the PPPFA was automatically retroactive for existing PPP loans, however the borrower may choose to retain the original 8 week Covered Period.

Category: Forgiveness Application

Subcategory: EZ Form

5. **Question:** Are seasonal employers eligible to use the EZ form for forgiveness?

Answer: Seasonal employers may choose to use the EZ Forgiveness Application if they meet at least one of the following criteria:

- The borrower is a self-employed individual, a sole proprietor, or independent contractor who had no employees at the time of the PPP loan application and did not include any employee salaries in the computation of average monthly payroll in the Borrower PPP Loan Application Form. OR
- The borrower can certify that no individual employee pay rates were reduced during the Covered Period when compared to the first quarter of 2020 by more than 25%, AND
- The borrower can certify that they did not reduce the number of employees or the average paid hours of employees between January 1, 2020 and the end of the Covered Period when compared to the earlier reference period or meet the full-time equivalent employee (FTE) Safe Harbor provision. OR
- The borrower can certify that no individual employee pay rates were reduced during the Covered Period when compared to the first quarter of 2020 by more than 25%, AND
- The Borrower was unable to operate during the Covered Period at the same level of business activity as before February 15, 2020, due to compliance with requirements established as a result of COVID -19.

However, if an employer chooses to use the seasonal employer alternative reference period, they are likely to have adjustments and reductions in FTE during their Covered Period due to the nature of their business. If the number of FTE is reduced between January 1, 2020 and the end Covered Period, they are not eligible to use the EZ form.

6. **Question:** If a business reduces salaries by less than 25%, can they still use the EZ form?

Answer: Yes, in order to use the EZ form employers must certify that no individual employee pay rates were reduced during the Covered Period when compared to the first quarter of 2020 **by more than 25%**.

Subcategory: FTE

7. **Question:** If a business decides to apply for forgiveness before the end of the Covered Period, are the FTE levels and compensation compared to the levels at the time the application is submitted?

Answer: To determine FTE levels the borrower's total average FTE between February 15, 2020 and April 26, 2020 must remain the same or be greater than the total average FTE in the borrower's pay period which included February 15, 2020. The following exemption exist for FTE reductions; (1) any positions for which the Borrower made a good-faith, written offer to rehire an individual who was an employee on February 15, 2020 and the Borrower was unable to hire similarly qualified employees for unfilled positions on or before December 31, 2020; (2) any positions for which the Borrower made a good-faith, written offer to restore any reduction in hours, at the same salary or wages, during the Covered Period or the Alternative Covered Period and the employee rejected the offer, and (3) any employees who during the Covered Period or the Alternative Payroll Covered Period (a) were fired for cause, (b) voluntarily resigned, or (c) voluntarily requested and received a reduction of their hours. In all of these cases, include these FTEs only if the position was not filled by a new employee. Any FTE reductions in these cases do not reduce the Borrower's loan forgiveness. If there is a reduction after applying the above exemption, the following Safe Harbor exemptions are available to the borrower: Two separate safe harbors exempt certain borrowers from any loan forgiveness reduction based on a reduction in FTE employee levels:

1.

The Borrower is exempt from the reduction in loan forgiveness based on a reduction in FTE employees described above if the Borrower, in good faith, is able to document that it was unable to operate between February 15, 2020, and the end of the Covered Period at the same level of business activity as before February 15, 2020, due to compliance with requirements established or guidance issued between March 1, 2020 and December 31, 2020, by the Secretary of Health and Human Services, the Director of the Centers for Disease Control and Prevention, or the Occupational Safety and Health Administration, related to the maintenance of standards for sanitation, social distancing, or any other worker or customer safety requirement related to COVID-19.

2.

The Borrower is exempt from the reduction in loan forgiveness based on a reduction in FTE employees described above if both of the following conditions are met: (a) the Borrower reduced its FTE employee levels in the period beginning February 15, 2020, and ending April 26, 2020; and (b) the Borrower then restored its FTE employee levels by not later than December 31, 2020 to its FTE employee levels in the Borrower's pay period that included February 15, 2020.

To determine if there was a reduction in pay of greater than 25%, the average annual salary or hourly wage during the Covered Period or Alternative Covered Period must be at least 75% of the average annual salary or hourly wages between January 1, 2020 and March 31, 2020, or the loan forgiveness amount will be proportionately decreased.

Subcategory: Effects of COVID-19

8. **Question:** If a business will not feel the effects of COVID-19 until a few months after the Covered Period, should the employer wait to apply for forgiveness until their books show the challenges they expect to encounter to show their need for the PPP loan funds?

Answer: If the borrower had a valid concern regarding the longer term impact of COVID and used the loan proceeds properly. They do not have to wait to apply for forgiveness to show the impact on the financial performance of the business. There is no information to suggest providing financials to support the impact of COVID is a requirement.

Category: FTE

Subcategory: Staffing Requirements

9. **Question:** An employee received an order from their doctor to stay at home due to the COVID-19 outbreak and a compromised immune system. This employee had the opportunity to work but followed the doctor's orders and stayed home. This employee was not laid off but was also not paid for the time they chose to stay home during the Covered Period. Will this affect forgiveness?

Answer: No, the employer's forgiveness will not be impacted. The employer will need to provide documentation of the offer and documentation that the employee was not able to return to work for medical reasons.

10. **Question:** Do temporary furloughs constitute a reduction in headcount? These individuals are not paid during their furlough but continue to receive company benefits.

Answer: So long as the temporarily furlough employees are brought back to work by December 31, 2020, the borrower's headcount will not be reduced.

11. **Question:** Will employers receive a reduction in loan forgiveness if they do not rehire employees that were laid off until the end of the Covered Period or Alternative Payroll Covered Period?

Answer: So long as the laid off employees are brought back to work by December 31, 2020, the borrower's headcount will not be reduced so loan forgiveness will not be affected. However loan forgiveness may be reduced by other factors including, a salary/hourly wage reduction greater than 25%, or if less than 60% of the loan amount is not used for payroll costs.

12. **Question:** If an employee voluntarily resigns during the Covered Period or Alternative Payroll Covered Period, is the employer's loan forgiveness reduced?

Answer: Not directly. When an employee of the borrower is fired for cause, voluntarily resigns, or voluntarily requests a reduced schedule during the Covered Period or Alternative Payroll Covered Period (a FTE reduction event), the borrower may count such employee at the same full-time equivalency level before the FTE reduction event. Employers will need to document any circumstance where an employee makes the request to leave or reduce their number of hours. The FTE Reduction Quotient calculation will need to be adjusted for these employee circumstances, and documented.

The Paycheck Protection Flexibility Act expands the statutory exemption (safe harbor) for rehiring employees by allowing that forgiveness will not be affected by a reduction in employees if the borrower is able to document an inability to rehire individuals, to hire similarly qualified employees, or to return to the same level of business activity as it was operating at before February 15, 2020, due to compliance with Covid-19 requirements.

If an employee was laid off for any other reason than those listed above, employers have until December 31, 2020 to reinstate employee levels to the same level as those on February 15, 2020.

13. **Question:** Is the reduction in employee hours evaluated on a total business or individual employee basis?

Answer: A reduction in hours is calculated on an individual employee basis. However the determination of the total average FTE's is the sum across all employees during the reference period in comparison to the covered period.

14. **Question:** Are businesses allowed to replace employees that left the business with new employees in order to meet the forgiveness requirements?

Answer: Yes. The relevant calculation is the amount of FTE at the end of the Covered Period or Alternative Payroll Covered Period Compared to the Base Period.

15. **Question:** If a business has been forced to cut hours due to the shelter in place, should they continue to pay employees to meet the staffing requirements of the program?

Answer: Borrowers must make their own business decisions. To the extent employees continue to be paid, FTE levels will be higher and reductions of PPP loan forgiveness tied to FTE levels will be less. Any amounts incurred for payroll costs during the Covered Period or Alternative Payroll Covered Period are included in the amount of PPP loan forgiveness, up to the amount of the PPP loan.

16. **Question:** If an employer decreased the hours worked by one employee but increased the number of hours worked by another employee to replace those hours, will forgiveness be affected?

Answer: Forgiveness could be affected by this change in hours depending on the impact on calculated FTE. If the calculated FTE for the two employees is reduced, it could reduce the amount of forgiveness depending on the potential reduction in FTEs for all employees.

Subcategory: Documentation

17. **Question:** How are employers to document employees who chose to stay home due to the COVID-19 outbreak, even though they had the opportunity to work?

Answer: The employer's forgiveness will not be impacted. The employer will need to provide documentation of the offer and documentation that the employee refused the offer to return to work.

18. **Question:** How are employers to document employees who were terminated due to their unwillingness to perform their job responsibilities? Is this termination included in the FTE safe harbor?

Answer: Yes, when an employee of the borrower is fired for cause, voluntarily resigns, or voluntarily requests a reduced schedule during the Covered Period or Alternative Payroll Covered Period (a FTE reduction event), the borrower may count such employee at the same full-time equivalency level before the FTE reduction event. Employers need to document any circumstance where an employee makes the request to leave or reduce their number of hours. The FTE Reduction Quotient calculation will need to be adjusted for these employee circumstances, and documented.

The Paycheck Protection Flexibility Act expands the statutory exemption (safe harbor) for rehiring employees by allowing that forgiveness will not be affected by a reduction in employees if the borrower is able to document an inability to rehire individuals, to hire similarly qualified employees, or to return to the same level of business activity as it was operating at before February 15, 2020, due to compliance with Covid-19 requirements.

If an employee was laid off for any other reason than those listed above, employers have until December 31, 2020 to reinstate employee levels to the same level as those on February 15, 2020.

19. **Question:** How are employers required to document and support their compliance with the FTE Safe Harbor in the case that an employee refused the offer for rehire, that the business was unable to find qualified individuals for rehire, or that the employer was unable to operate at the same level of business activity as it was operating before February 15, 2020 due to compliance with COVID-19 requirements?

Answer: Appropriate documentation if an employee refused an offer for rehire includes a written offer to rehire to the employee and the prior employee's written rejection of the offer. Showing an inability to find qualified individuals for rehire may include showing evidence of the job posting(s) and location(s) of where posted, along with evidence of any applications received to demonstrate the applicant(s) lack of qualifications. Regarding the employer's inability to operate at prior levels due to COVID-19 requirements, the employer should document all COVID-19 restrictions and requirements that were instituted in the business' location and for the type of business activity conducted.

Subcategory: Overtime

20. **Question:** If the amount of overtime worked by an employee was reduced during the Covered Period, how will this affect forgiveness amounts?

Answer: The forgiveness amount may be affected by a decrease in the number of overtime hours worked. If the average number of hours paid weekly during the Covered Period is less than the average number of hours paid weekly during the previous quarter, forgiveness may be affected.

However, the Paycheck Protection Flexibility Act expands the statutory exemption (safe harbor) for rehiring employees by allowing that forgiveness will not be affected by a reduction in employees if the borrower is able to document an inability to rehire individuals, to hire similarly qualified employees, or to return to the same level of business activity as it was operating at before February 15, 2020, due to compliance with Covid-19 requirements.

Subcategory: Part Time Employees

21. **Question:** If an employee works occasionally on an as-needed basis, how are their hours factored into the forgiveness calculation?

Answer: To calculate the FTE for all employees, the business must calculate the weekly average number of hours paid during the Covered Period to the weekly average number of hours paid during the previous quarter. To simplify calculations, employers also have the option to indicate that any employee who works less than 40 hours a week may be counted as 0.5 FTE.

22. **Question:** How are part time employees factored into the staffing requirements and forgiveness calculation?

Answer: Part-time employees are included in the calculation of Full Time Equivalent employees (FTE). For each employee, the average number of hours paid per week is divided by 40, and rounded to the nearest tenth. For example, a part-time employee working 32 hours per week would represent 0.8 FTE. The maximum for each employee is capped at 1.0. A simplified method may also be used which assigns a 1.0 for employees who work 40 hours or more per week

and 0.5 for employees who work fewer than 40 hours per week. Payroll costs associated with part-time employees are included in payroll costs for PPP loan forgiveness calculations.

23. **Question:** What is the definition of a part-time employee?

Answer: Per the forgiveness application an employee who works less than 40 hours per week is considered a part-time employee and their FTE is either the ratio of their hours worked over 40 (rounded to the nearest tenth) or 0.5 at the choice of the borrower.

Subcategory: Calculation

24. **Question:** Is the owner included in the FTE calculation?

Answer: Yes. All employees are to be included in the FTE calculation on the Standard Forgiveness application.

Subcategory: Timing

25. **Question:** If borrowers use all of their funds before the end of the Covered Period, are they required to maintain the same number of FTE once all of the funds have been spent?

Answer: Yes, employers must reinstate the number of FTE to the same level as February 15, 2020 by December 31, 2020.

However, the Paycheck Protection Flexibility Act expands the Safe Harbor for rehiring employees by allowing that forgiveness will not be affected by a reduction in employees if the borrower is able to document its inability to return to the same level of business activity as it was operating at before February 15, 2020, due to compliance with Covid-19 requirements, or its inability to rehire individuals who were employees on February 15, 2020, as well as its inability to hire similarly qualified employees for unfilled positions on or before December 31, 2020.

26. **Question:** Is the FTE reduction quotient calculated by evaluating the average number of FTE during the Covered Period (or Alternative Payroll Covered Period) or the number of FTE at the end of the Covered Period (or Alternative Payroll Covered Period)?

Answer: The FTE reduction quotient is determined by dividing the average FTE headcount during the Covered Period (or Alternative Payroll Covered Period) by the average FTE headcount during the historical period selected by the borrower.

Employers must reinstate the number of FTE to the same level as February 15, 2020 by December 31, 2020.

Subcategory: Seasonal Employers

27. **Question:** Some seasonal employers are approaching the end of their busy season. Employees will be laid off until the start of the next busy season even though there is time still remaining in the Covered Period. Will this affect their forgiveness amount?

Answer: Seasonal employers are required to meet the same FTE requirements as traditional employers. If their busy season concludes in the middle of the Covered Period (or Alternative Payroll Covered Period) seasonal employers should select a reference period that is similar to the Covered Period. This

reference period may be any consecutive 12-week period between May 1, 2019 and September 15, 2019. Other than the choice of reference period, the same FTE calculations and requirements apply to seasonal employers as non-seasonal employers.

Subcategory: Paid Parental Leave

28. **Question:** Does paid parental leave during the Covered Period or Alternative Payroll Covered Period affect FTE requirements?

Answer: Paid parental leave does not affect the FTE requirements or loan forgiveness. For forgiveness calculation, the employee on paid leave remains in the employee head count and the funds used for paid leave are included in payroll costs.

Subcategory: Full Time/Part Time Classifications

29. **Question:** What is the definition of a full-time employee?

Answer: Per the forgiveness application an employee who works 40 or more hours per week is considered 1.0 FTE.

30. **Question:** How do businesses include employees who worked over 40 hours into the FTE calculation?

Answer: Employees who work more than 40 hours per week are still counted as 1.0 FTE. The maximum FTE calculation for each employee is capped at 1.0.

Subcategory: Compensation Requirements

31. **Question:** Are businesses allowed to decrease employee salaries as long as compensation does not fall below 75% of the average compensation for the previous quarter?

Answer: Businesses may reduce employee pay rates and/or hours, without effecting loan forgiveness, so long as the reduction is 25% or less of the average compensation for the previous quarter.

Category: Loan Forgiveness

Subcategory: S-Corp

32. **Question:** How does the PPP loan forgiveness apply to an S-Corp CEO who takes periodic owner draw but is not on payroll?

Answer: Compensation to owner/employees and general partners can be included in payroll costs on line 9 of Schedule A.

- Owner compensation is limited to eight weeks' worth of 2019 net profit (up to \$15,385 for any owner) for an 8-week Covered Period or Alternative Payroll Covered Period, or

- 2.5 months' worth (2.5/12) of 2019 net profit (up to \$20,833 for any owner) for a 24-week Covered Period or Alternative Payroll Covered Period.

Subcategory: Environmental Complications

33. **Question:** A business was looted badly. This resulted in employees quitting and reduced payroll. Will this circumstance meet the requirements of the FTE Safe Harbor when evaluating loan forgiveness?

Answer: Guidance does not specifically state if the Safe Harbor addresses other environmental or economic complications. Guidance only states that the FTE Safe Harbor comes into effect if employees voluntarily resigned or refused the offer for rehire, if the business was unable to find qualified individuals for rehire or if the employer was unable to operate at the same level of business activity due to compliance with COVID-19 safety requirements.

Subcategory: Covered Period

34. **Question:** Are borrowers allowed to choose more than 8 weeks but less than 24 weeks for their covered period?

Answer: The current guidance states the Covered Period (or Alternative Payroll Covered Period) is either the original 8 week period, or the new 24 week period. There is no guidance that says it is any number of weeks between 8 and 24. Further guidance is anticipated once the new forgiveness loan application is provided.

35. **Question:** Do borrowers need to notify the lender if they wish to extend their Covered Period or Alternative Payroll Covered Period past 8 weeks?

Answer: The extension of the Covered Period due the PPPFA was automatically retroactive for existing PPP loans, however the borrower may choose to retain the original 8 week Covered Period.

Subcategory: Documentation

36. **Question:** Do borrowers need to establish a separate bank account for the loan funds?

Answer: Guidance does not require borrowers to set-up a separate account for the loan funds, however, a separate account may help support accurate and detailed recordkeeping.

Subcategory: Non-US Residents

37. **Question:** Does the requirement to exclude non US residents include non US residents with a work permit?

Answer: The program includes employees whose principal place of residence is in the U.S., and does not indicate they need to be a U.S. citizen. Employees residing outside of the U.S., whether a citizen or not, should not be included in FTE or payroll costs.

Subcategory: Timeline

38. **Question:** How long will the forgiveness process take?

Answer: The lender has 60 days to make a decision and submit the application to the SBA. At that time, the lender must also notify the borrower in writing if they have issued a decision to SBA denying the loan forgiveness application. Within 30 days of notice from the lender, a borrower may request that SBA review the lender's decision on the borrower's forgiveness application. The SBA has 90 days to review and fund the forgiveness amount after the final decision is submitted by the bank.

Subcategory: Forgiveness Requirements

39. **Question:** Is forgiveness affected if a business is considered either an Essential or Non-Essential business?

Answer: Nothing in the program guidance differentiates between essential and non-essential businesses.

Subcategory: Disputes

40. **Question:** Will borrowers have the opportunity to dispute the forgiveness decision if they do not receive full loan forgiveness?

Answer: Yes. The lender must notify the borrower in writing if they have issued a decision to SBA denying the loan forgiveness application. Within 30 days of notice from the lender, a borrower may request that SBA review the lender's decision on the borrower's forgiveness application.

Subcategory: Application

41. **Question:** When can businesses apply for loan forgiveness?

Answer: A borrower may submit a loan forgiveness application any time on or before the maturity date of the loan – including before the end of the covered period – if the borrower has used all of the loan proceeds for which the borrower is requesting forgiveness. If the borrower applies for forgiveness before the end of the covered period and has reduced any employee's salaries or wages in excess of 25 percent, the borrower must account for the excess salary reduction for the full 8-week or 24-week covered period

42. **Question:** Are borrowers allowed to apply for forgiveness before the end of their Covered Period if they have already spent all of the original loan funds?

Answer: Yes, guidance indicates that applications for forgiveness can be submitted any time after all of the loan funds have been used for eligible purposes.

43. **Question:** If a borrower made a mistake on the PPP Loan Application, can this be fixed on the Loan Forgiveness Application since the numbers may be in misalignment when compared to the original Loan Application?

Answer: The amounts used for calculating the Loan Forgiveness Amount do not directly depend on what information was used for the original PPP Loan Application. Corrections to the PPP Loan Application would not impact the eligible amount of Loan Forgiveness, unless it is determined that the Borrower was not eligible for the PPP loan in the first place. Loans which were not eligible as a PPP loan will not be forgiven.

44. **Question:** When is the forgiveness application due?

Answer: There is no defined due date. Note that loan payments will commence after 10 months following the end of the Covered Period or Alternative Payroll Covered Period. Interest continues to accrue from date of disbursement of the loan.

45. **Question:** Where can borrowers find their PPP Loan Number and the Lender PPP Loan Number?

Answer: TBD

46. **Question:** Where do employers include bonuses and benefits on the PPP Loan Forgiveness Application?

Answer: Cash bonuses are included in the Cash Compensation section of the PPP Schedule A worksheet. Bonuses are included in the total salary and compensation paid to employees during the Covered Period or Alternative Payroll Covered Period. Benefits are included in lines 6 and 7 of the PPP Schedule A worksheet. Line 6 has employers enter the total amount paid by the borrower for employer contributions for employee health insurance and line 7 has employers enter the total amount paid by the borrower for employer contributions to employee retirement plans.

Subcategory: Seasonal Employers

47. **Question:** How do FTE requirements apply to seasonal employers?

Answer: Seasonal employers have the option to use an alternative reference period against which their number of FTE during the Covered Period or Alternative Payroll Covered Period will be compared. This alternative reference period may be any consecutive 12-week period between May 1, 2019 and September 15, 2019. Other than the choice of reference period, the same FTE calculations and requirements apply to seasonal employers as non-seasonal employers.

Subcategory: EIDL

48. **Question:** If a business received EIDL, will this affect the PPP Loan Forgiveness?

Answer: The receipt of an EIDL does not impact forgiveness, however any "Emergency Advance" received will be deducted from the loan forgiveness calculation because the EIDL Emergency Advance itself does not require repayment.

Subcategory: Taxes

49. **Question:** Is the forgiveness amount going to be considered taxable revenue to the business?

Answer: No. The forgiveness amount is excluded from gross income by statute. It should be noted that any expenses incurred associated with the forgiveness amount are also not deductible for tax purposes.

Subcategory: Calculation

50. **Question:** Is there a calculator accessible to help estimate the amount of loan forgiveness?

Answer: The Loan Forgiveness Application provides instructions regarding the calculations. Link to loan forgiveness application: <https://content.sba.gov/sites/default/files/2020-05/3245-0407%20SBA%20Form%203508%20PPP%20Forgiveness%20Application.pdf> PPP Forgiveness Calculators have been made available online by certain firms, including Crowe.

Category: Loan Funding

Subcategory: Additional Funds

51. **Question:** Will there be another round of PPP loan funds where borrowers can apply for additional funds?

Answer: The SBA has not indicated that there will be another round of loan funding where borrowers may apply for additional funds. The last day for funding approving PPP loans is August 8, 2020.

52. **Question:** If borrowers have used all of their PPP loan funds before the end of the Covered Period, are they allowed to apply for more funds now that the length Covered Period has been extended?

Answer: No guidance has been released determining if borrowers may apply for additional PPP loan funds. However, loan increases may be issued to Partnerships and Seasonal Employers in specific situations. If a partnership received a PPP loan that only included amounts necessary for payroll costs of the partnership's employees and other eligible operating expenses, but did not include any amount for partner compensation, the lender may electronically submit a request through the SBA's E-Tran Servicing site to increase the PPP loan amount to include appropriate partner compensation. The borrower must provide the lender with required documentation to support the calculation of the increase.

If a seasonal employer received a PPP loan before the alternative criterion for such employers was posted on April 28, 2020, and would be eligible for a higher maximum loan amount under the alternative criterion, the lender may electronically submit a request through the SBA's E-Tran Servicing Site to increase the PPP loan amount

Subcategory: Taxes

53. **Question:** Is the loan taxable income?

Answer: To the extent the PPP loan proceeds are used for eligible payroll and nonpayroll costs incurred and paid during the Covered Period or Alternative Payroll Covered Period, the amount of loan forgiveness is excluded from gross income by statute. It should be noted that any expenses incurred associated with the forgiveness amount are also not deductible for tax purposes.

Category: Non-Payroll Costs

Subcategory: Rent

54. **Question:** An employer had a lease that began prior to February 15, 2020. The business had to re-sign the lease to continue renting the property on March 5, 2020. Are the payments made after March 5, 2020 includable in forgiveness calculations?

Answer: Yes. The borrower will need to provide both leases, showing the existence of the lease prior to February 15, 2020 and the expiration date, along with the new lease agreement/extension.

55. **Question:** Is land for agricultural clients an eligible rent expense?

Answer: Yes, so long as the business' rental agreement was in effect before February 15, 2020.

56. **Question:** Are HOA and condominium fees included under rent expense?

Answer: Only such expenses being paid as part of a lease agreement can be included in rent expense.

57. **Question:** Does rent only include workspace/real estate? Or are payments to rent vehicles and equipment also covered?

Answer: Per the forgiveness application business rent or lease payments for real or personal property during the Covered Period or Alternative Payroll Covered Period, pursuant to lease agreements in force before February 15, 2020, are covered.

Subcategory: Documentation

58. **Question:** Are borrowers required to submit the actual lease agreement to document rent expense?

Answer: Borrowers must provide documentation to support the rent and lease expenses. Borrowers are advised to maintain documentation that will support their compliance with the requirements of the program. Maintaining access to the lease agreements will support compliance with the requirement that lease agreements must have been in effect before February 15, 2020.

Subcategory: Covered Expenditures

59. **Question:** Are costs associated with the purchase of Covid supplies forgivable expenditures?

Answer: Expenditures on COVID-19 supplies are not included as eligible nonpayroll costs.

60. **Question:** Are employee cell phone bills forgivable expenditures?

Answer: Guidance does not specifically state if reimbursement of employee cell phone bills are forgivable expenses. However, telephone is included in non-payroll costs as utilities, so long as they are for business purposes. If the cell phones are owned by the business and were under service agreements in existence as of February 15, 2020, the costs can be included in utilities expenses.

61. **Question:** If a business owner owns and leases the property to the business, can rent and interest be included in the forgiveness calculation?

Answer: Provided the rental agreement between the business and business owner was in existence prior to February 15, 2020 the rent may be included in the eligible non-payroll costs. The interest expense would not be eligible however because presumably the mortgage loan is to the business owner and not the business and the interest is included in the rent payment from the business.

62. **Question:** Is interest on an unsecured credit line a forgivable expense?

Answer: The guidance provided states interest on any business mortgage obligation on real or personal property incurred before February 15, 2020. Interest on unsecured debt would not be included as part of forgivable expenses.

63. **Question:** Are long term disability and long term life insurance forgivable expenses?

Answer: Yes. Employer benefits costs include employer-paid amounts (including premiums) for medical, dental, life, short term disability, and long term disability

insurance. Employer-paid retirement benefits and employer contributions to health savings accounts are also includable.

64. **Question:** Is interest paid on vehicles and equipment forgivable, or is it strictly limited to mortgage interest on real-estate?

Answer: Our interpretation of the somewhat unclear wording of the guidance is that interest on loans secured by business-related personal property, such as vehicles and equipment, may be included in the forgiveness calculation.

65. **Question:** What specifically is covered under "Non-Payroll Expenditures"?

Answer: Eligible nonpayroll costs eligible for forgiveness consist of:
covered mortgage obligations: payments of interest (not including any prepayment or payment of principal) on any business mortgage obligation on real or personal property incurred before February 15, 2020 ("business mortgage interest payments");
covered rent obligations: business rent or lease payments pursuant to lease agreements for real or personal property in force before February 15, 2020 ("business rent or lease payments"); and
covered utility payments: business payments for a service for the distribution of electricity, gas, water, transportation, telephone, or internet access for which service began before February 15, 2020 ("business utility payments").
An eligible nonpayroll cost must be paid during the Covered Period or Alternative Payroll Covered Period and paid on or before the next regular billing date, even if the billing date is after the Covered Period or Alternative Payroll Covered Period. Eligible nonpayroll costs cannot exceed 40% of the total forgiveness amount.

Subcategory: Loan Interest

66. **Question:** Are loan payments eligible for forgiveness?

Answer: Only payments of interest (not including any prepayment or payment of principal) on any business mortgage obligation on real or personal property incurred before February 15, 2020.

67. **Question:** What types of loan interest is covered under "Non Payroll Expenditures"?

Answer: Only payments of interest (not including any prepayment or payment of principal) on any loan secured by business real property incurred before February 15, 2020 can be included in the forgiveness amount. The guidance is somewhat unclear but our interpretation is that payments of interest on loans secured by a business' personal property (e.g. vehicles, equipment, etc.) incurred before February 15, 2020 may be included in forgiveness calculations.

Subcategory: Timing

68. **Question:** Are borrowers allowed to pre-pay expenses during the Covered Period or Alternative Payroll Covered Period for payments that will be accrued and due after the Covered Period or Alternative Payroll Covered Period?

Answer: No, prepayment of non-payroll costs does not appear to be includable in the forgiveness amount as the IFR indicates that expenses must have been incurred during the Covered Period or Alternative Payroll Covered Period.

69. **Question:** Are non-payroll expenditures limited to the Covered Period or Alternative Payroll Covered Period, or can they be accrued before the Covered Period?

Answer: An eligible nonpayroll cost must be paid or incurred during the Covered Period or Alternative Payroll Covered Period and paid on or before the next regular billing date, even if the billing date is after the Covered Period or Alternative Payroll Covered Period. Eligible nonpayroll costs cannot exceed 40% of the total forgiveness amount. Count nonpayroll costs that were both paid and incurred only once.

70. **Question:** Can borrowers back pay utility and rent payments using the PPP Loan funds if they are behind on payments?

Answer: Utility and rent cost paid during the Covered Period or Alternative Payroll Covered Period are eligible for inclusion in the forgiveness amount. The guidance is not completely clear but this would appear to say that past due payments can be included.

Subcategory: Utilities

71. **Question:** Do utility payments need to be prorated to match the 8 week or 24 week period?

Answer: No. An eligible nonpayroll cost must be paid or incurred during the Covered Period or Alternative Payroll Covered Period and paid on or before the next regular billing date, even if the billing date is after the Covered Period or Alternative Payroll Covered Period. Eligible nonpayroll costs cannot exceed 40% of the total forgiveness amount.

Subcategory: Forgiveness Calculation

72. **Question:** If employers decrease the number of employees during the Covered Period or Alternative Payroll Covered Period, is forgiveness for non-payroll costs affected?

Answer: Non-payroll costs are indirectly affected by a decrease in the number of employees during the Covered Period or Alternative Payroll Covered Period. If payroll decreases during the Covered Period or Alternative Payroll Covered Period, the maximum amount of forgiveness will also decrease if payroll costs are less than 60% of the original loan amount.

Subcategory: Transportation

73. **Question:** What specifically is covered under transportation costs?

Answer: A specific definition has not been provided, although guidance provided by the SBA includes an example that gas used by a sole proprietor for driving their business vehicle would qualify.

Category: Payroll

Subcategory: Salary > \$100k

74. **Question:** An employee works at two separate companies. Are they limited to receive a maximum of an annualized compensation of \$100,000 from both employers combined if both employers are paying the employee with PPP loan funds?

Answer: No, the employee is not limited to a combined annualized compensation of \$100,000 between the two employers. Since the employee is an

employee of both businesses, their hours and compensation will be assessed separately by each employer.

75. **Question:** Are employee benefits for employees earning over \$100,000 annually in excess of their salary forgivable?

Answer: Yes, benefits paid to employees receiving compensation for \$100,000 or more annually are also forgivable. The \$100,000 annualized compensation cap applies to salary and other cash compensation, but not to amounts paid as benefits including employer-paid amounts for insurance and retirement plans.

Subcategory: Covered Expenditures

76. **Question:** Are employee dental plans includable in the forgiveness calculation?

Answer: Yes, employers may include the employer's contribution during the Covered Period or Alternative Payroll Covered Period to employee medical, vision and dental health plans in the payroll portion of the forgiveness request.

77. **Question:** Are fees paid to a payroll processing a forgivable expense?

Answer: Fees paid to payroll processing companies are not included as covered non-payroll costs.

78. **Question:** If an employee resigned and received their PTO balance at the time of resignation, will this amount be a forgivable expense outside of the annualized \$100,000 limit?

Answer: Vacation pay can be included in payroll costs, but payroll costs for any individual employee still may not exceed \$100,000 on an annualized basis.

79. **Question:** Are union benefits included in payroll costs?

Answer: Payroll costs included those health benefit and retirement benefit costs paid by the employer.

80. **Question:** Can employers use 100% of the loan for payroll?

Answer: Yes. Current guidance only requires at least 60% of PPP Loan proceeds to be used towards qualifying payroll costs. Borrowers may spend more than 60% of loan proceeds on payroll costs if they choose. However, if less than 60% of the loan proceeds are used on payroll costs, the amount of loan forgiveness will be reduced.

81. **Question:** Is owner compensation included in payroll?

Answer: Yes, owner compensation is included in payroll costs if it is paid through the business payroll system.

Subcategory: Taxes

82. **Question:** Are employer FICA contributions forgivable expenditures?

Answer: State and local payroll taxes are includable in payroll costs, but not federal payroll taxes.

83. **Question:** Which specific state and local payroll taxes are included in forgiveness calculations?

Answer: Guidance is not specific beyond stating that the amount must be paid by the Borrower for employer state and local taxes assessed on employee compensation (e.g., state unemployment insurance tax); do not include any taxes withheld from employee earnings.

84. **Question:** Why are Federal taxes excluded from Payroll forgiveness?

Answer: Because the loan amount calculation is based on gross payroll, prior to the deduction for federal taxes.

85. **Question:** Are employer taxes paid on payroll also forgiven?

Answer: Payments by employers of the employer's portion of state and local taxes assessed on employee compensation (e.g., state unemployment insurance tax) are included in payroll costs. Payroll costs however exclude federal employment taxes, including the employee's and employer's share of FICA (Federal Insurance Contributions Act) and Railroad Retirement Act taxes. Federal and state income taxes required to be withheld from employee paychecks are not included in eligible payroll costs.

86. **Question:** If a Schedule C taxpayer reports more than \$100,000 in net profits, can he/she use the entire PPP loan proceeds for payroll?

Answer: Payroll costs including salary, wages, and tips, up to \$100,000 of annualized pay per employee (for 24-weeks, a maximum of \$46,154 per individual and for 8-weeks, a maximum of \$15,385 per individual) as well as covered benefits for employees (but not owners) may be forgiven. Forgiveness of loan amounts associated with payments for compensation to any one individual including the owner is limited to a weekly average amount of \$1,923 over the Covered Period or Alternative Payroll Covered Period. Further guidance from the SBA is needed related to the application of the \$100,000 salary limit to the forgiveness calculations for a 24-week Covered Period or Alternative Payroll Covered Period.

87. **Question:** Are gross wages prior to withholding taxes (and not net pay amounts) eligible payroll costs?

Answer: Yes, that is correct.

88. **Question:** Are workers compensation insurance and unemployment insurance/related taxes able to be included in the eligible payroll expenses counted in determining the loan forgiveness amount?

Answer: Current guidance excludes workers' compensation premiums from the definition of eligible payroll expenses. Payment of employer state and local taxes assessed on employee compensation (e.g., state unemployment insurance tax) are included in payroll costs; however, do not include any taxes withheld from employee earnings (e.g., required state income tax withholding).

89. **Question:** Can wages paid during the Covered Period or Alternative Payroll Covered Period also be deducted from income for tax purposes?

Answer: Based on current IRS guidance, to the extent used to support loan forgiveness any eligible payroll and nonpayroll costs incurred and paid during the Covered Period or Alternative Payroll Covered Period (which determines the amount of loan forgiveness) cannot be deducted for federal income tax purposes. Please reference the SBA Loan Forgiveness Application for the definitions of the Covered Period or Alternative Payroll Covered Period.

90. **Question:** Will the payroll be deductible for income tax purposes?

Answer: To the extent payroll costs are supporting the forgiveness amount of a PPP loan, they are not tax deductible. Based on current IRS guidance, any eligible payroll and nonpayroll costs incurred and paid during the Covered Period or Alternative Payroll Covered Period (which determines the amount of loan forgiveness) cannot be deducted for federal income tax purposes. Payroll costs beyond the amount associated with loan forgiveness are tax deductible, assuming they otherwise meet applicable deductibility requirements under current tax law.

Subcategory: Seasonal Employers

91. **Question:** Can a seasonal employer pay more than the Covered Period cap of either \$46,154 for a 24-week period or \$15,385 for an 8-week period to a single employee during the Covered Period or Alternative Payroll Covered Period if the annual pay does not exceed \$100,000?

Answer: No, amounts paid to any one employee during the Covered Period or Alternative Payroll Covered Period exceeding \$46,154 for a 24-week period or \$15,385 for a 8-week period cannot be included in the forgiveness amount. Compensation requirements of the Paycheck Protection Program also apply to seasonal employers.

Subcategory: Compensation Requirements

92. **Question:** Do pay reductions also apply to employees who are commission based?

Answer: Yes, gross commissions are included in eligible payroll costs. Businesses may reduce employee pay rates and/or hours, without effecting loan forgiveness, so long as the reduction is 25% or less of the average compensation for during the first quarter of 2020.

Subcategory: Salary Increase

93. **Question:** Are businesses allowed to increase salaries over the Covered Period or Alternative Payroll Covered Period? How would an increase in pay impact forgiveness?

Answer: Salaries may be increased by the borrower. Any increases in salaries paid would be included in payroll costs for purposes of the forgiveness determination, and could increase the amount of the loan forgiveness. It should be noted that compensation over an annualized salary of \$100,000 paid to any individual employee during the Covered Period or Alternative Payroll Covered Period may not be forgiven.

Subcategory: Unemployment

94. **Question:** Can employees receive unemployment and PPP funds at the same time?

Answer: Employees are not eligible for full-time unemployment if they are still working for their employer. However, PUA does pay for reduced hours unemployment. In the situation the employer could have reduced hours and used the monies for payroll, the employee could legally received partial PUA unemployment to compensate for a reduction in hours worked. It is the responsibility of the employee to assure they are not paid wages and unemployment for the same hours.

Subcategory: Bonuses

95. **Question:** Are employers allowed to distribute excess loan funds to employees as bonuses?

Answer: PPP loan funds must be used for eligible payroll costs or eligible nonpayroll costs. Bonuses paid would be included as a payroll cost. Borrowers can determine how bonuses are paid.

96. **Question:** Are employers allowed to grant bonuses?

Answer: Bonuses may be included in payroll costs to the extent that annualized compensation over the applicable Covered Period or Alternative Payroll Covered Period does not exceed \$100,000.

Subcategory: Timing

97. **Question:** Can employers issue payroll during the Covered Period or Alternative Payroll Covered Period for time that was accrued prior to the Covered Period or Alternative Payroll Covered Period?

Answer: Payments of back pay during the Covered Period or Alternative Payroll Covered Period may be forgiven. However, these payroll costs can only be used for the use of funds determination and total compensation during the Covered Period or Alternative Payroll Covered Period for any one employee may not exceed an annualized rate of \$100,000. Back pay cannot be used for purposes of determining if there has been a greater than 25% reduction in pay during the applicable Covered Period or Alternative Payroll Covered Period.

98. **Question:** If 401K and health insurance benefits are paid annually or semi-annually by employers, how should employers calculate the benefits expenses during the Covered Period or Alternative Payroll Covered Period for all employees?

Answer: The amount of benefits incurred during the Covered Period or Alternative Payroll Covered Period may be included in the forgiveness calculation. The incurred costs must be paid during the period or paid on or before the next regular billing cycle immediately following the end of the period. If the payment at the next billing cycle occurs prior to when the request for forgiveness is submitted, it can be included in the eligible benefits costs.

99. **Question:** Does the distribution of payroll need to fully align with the 8 week or 24 week period?

Answer: An Alternative Payroll Covered Period may be selected by the Borrower to align to their normal payroll cycle. Alternative Payroll Covered Periods begin on the first day of the next payroll period following the date of the loan disbursement. Borrowers are generally eligible for forgiveness for the payroll costs paid and payroll costs incurred during the Covered Period or Alternative Payroll Covered Period. Payroll costs are considered paid on the day that paychecks are distributed or the Borrower originates an ACH credit transaction. Payroll costs are considered incurred on the day that the employee's pay is earned. Payroll costs incurred but not paid during the Borrower's last pay period of the Covered Period (or Alternative Payroll Covered Period) are eligible for forgiveness if paid on or before the next regular payroll date. Otherwise, payroll costs must be paid during the Covered Period (or Alternative Payroll Covered Period).

Subcategory: 1099

100. **Question:** Are 1099 employees included in payroll forgiveness?

Answer: No, 1099 Independent contractors are not paid wages or salary. They are able to qualify for their own PPP loan.

Subcategory: Staffing Increase

101. **Question:** Are businesses allowed to add employees to payroll during the Covered Period or Alternative Payroll Covered Period and the funds for those additional employees be forgiven?

Answer: Yes, businesses are allowed to add employees to payroll during the Covered Period or Alternative Payroll Covered Period. Any payroll costs associated with added staff can be included in the businesses' total payroll used for forgiveness calculation.

Subcategory: Benefits

102. **Question:** What benefits are included in payroll costs?

Answer: PPP loans covers payroll costs, including costs for employee vacation, parental, family, medical, and sick leave. However, the CARES Act excludes qualified sick and family leave wages for which a credit is allowed under sections 7001 and 7003 of the Families First Coronavirus Response Act (Public Law 116–127). The following costs are also included:

a) Total amount paid by the Borrower for employer contributions for employee health insurance, including employer contributions to a self-insured, employer-sponsored group health plan, but excluding any pre-tax or after tax contributions by employees.

b) Total amount paid by the Borrower for employer contributions to employee retirement plans, excluding any pre-tax or after-tax contributions by employees.

c) Total amount paid by the Borrower for employer state and local taxes assessed on employee compensation (e.g., state unemployment insurance tax); do not list any taxes withheld from employee earnings.

Category: Sole Proprietors

Subcategory: Covered Expenditures

103. **Question:** Can an independent contractor using a home office include home mortgage interest as an eligible expense?

Answer: No. Interest on loans secured by business real estate is includable as a non-payroll cost for forgiveness.

104. **Question:** Is health insurance included in payroll costs for self-employed individuals?

Answer: No, forgiveness amounts only include amounts paid for employee health insurance benefits.

105. **Question:** What is included in the maximum 40% of non-payroll expenditures for self-employed individuals?

Answer: Non-payroll costs for self-employed individuals are the same as for other borrowers under the PPP loan forgiveness requirements, which are interest, rent and utilities. However, current guidance dictates that you must have

claimed or be entitled to claim a deduction for such expenses on your 2019 Form 1040 Schedule C for them to be a permissible expenditure during the Covered Period or Alternative Payroll Covered Period following the disbursement of the loan. For example, if you did not claim or are not entitled to claim utilities expenses on your 2019 Form 1040 Schedule C, you cannot use the PPP loan proceeds for utilities during the Covered Period or Alternative Payroll Covered Period.

Subcategory: Payroll

106. **Question:** Can the spouse of the owner of a Sole Proprietorship be included in forgivable payroll costs?

Answer: If the spouse was previously on the business' traditional payroll, the spouse's payroll may also be a forgivable expense.

107. **Question:** If a sole proprietor is receiving unemployment under PUA, are they allowed to be disbursing payroll using the PPP loan funds at the end of their unemployment period?

Answer: The only guidance provided regarding unemployment is that the sole proprietor could receive either unemployment or a PPP loan, but not both.

Subcategory: Documentation

108. **Question:** How does a sole proprietor provide documentation with the Loan Forgiveness Application? Are they to write checks to themselves out of the PPP loan funds?

Answer: Sole Proprietors may pay themselves out of the PPP loan funds to compensate any lost profit due to the effects of the Pandemic. Documentation of this payment may include cancelled checks or ACH credit transactions out of the PPP loan account. It should be noted that forgiveness amounts for sole proprietors and owners compensation are limited to no more than \$15,385 for an 8-week Covered Period, or for a 24-week Covered Period no more than 2.5 months of 2019 Schedule C net profit subject to a cap of \$20,833.

Subcategory: Forgiveness Calculation

109. **Question:** How is forgiveness calculated for sole proprietors?

Answer: Forgiveness calculated for sole proprietors includes payroll costs and non-payroll costs similar to other businesses. The primary difference is that owner compensation replacement is calculated based on 2019 net profit.

- Owner compensation is limited to eight weeks' worth of 2019 net profit (up to \$15,385 for any owner) for an 8-week Covered Period or Alternative Payroll Covered Period, or
- 2.5 months' worth (2.5/12) of 2019 net profit (up to \$20,833 for any owner) for a 24-week Covered Period or Alternative Payroll Covered Period.

In addition, for nonpayroll costs, borrowers must have claimed or be entitled to claim a deduction for such expenses on their 2019 Form 1040 Schedule C for them to be a permissible use during the Covered Period or Alternative Payroll Covered Period. For example, if a borrower did not claim or are not entitled to claim utilities expense on their 2019 Form 1040 Schedule C, they cannot use the proceeds for utilities during the Covered Period or Alternative Payroll Covered Period.

Subcategory: Taxes

110. **Question:** Are owner benefits included for an S Corp?

Answer: The current guidance provides that only covered benefits of employees (but not owners) shall count as eligible payroll costs for purposes of determining loan forgiveness.

111. **Question:** As a sole proprietor, can borrowers use some of the PPP loan to pay estimated taxes on the loan amount provided? Or is this loan not taxed for some reason.

Answer: Although the amount of the loan forgiveness is not taxable, the portion of the PPP loan used for owner compensation replacement, as well as payroll costs for employees whose principal place of residence is in the United States, would be treated as taxable income to the recipients. The sole proprietor would have to make its own determination as to any federal or state estimated tax payment requirements, but it would not be able to directly use the PPP loan proceeds to cover any estimated taxes.

112. **Question:** Will PPP proceeds paid to a sole proprietor be taxable to a sole proprietor as these are not wages similar to the normal use of proceeds?

Answer: Yes. Although the amount of the loan forgiveness is not taxable, the portion of the PPP loan used for owner compensation replacement, as well as payroll costs for employees whose principal place of residence is in the United States, would be treated as taxable income to the recipients.

Category: Unforgiven Loan Amounts

Subcategory: Interest

113. **Question:** If a borrower ended up not needing the funds and returns the original loan amount in full, will they be required to pay interest?

Answer: Borrowers will be required to pay interest on the loan. Interest begins to accrue the date the funds were disbursed to the borrower.

114. **Question:** When does interest on the loan begin to accrue? Will interest be included in the forgiveness amount?

Answer: Interest begins to accrue on the day that the business receives funds from the loan. Accrued interest on the PPP loan forgiveness amount is included in the total forgiveness amount.

Subcategory: Monthly Payment

115. **Question:** How is the monthly payment calculated for the remaining loan amounts after forgiveness is determined? Will this amount include interest?

Answer: Payments will be equal monthly payments consisting of principal and interest in an amount sufficient to fully amortize the remaining principal balance of the loan and all accrued interest over the remaining term of the loan. Loans approved by SBA on or after June 5, 2020 may have a maturity of five years. If the loan was approved prior to June 5, 2020, both the lender and borrower must agree to extend the loan maturity from the previously required two year maturity to a five year maturity.

Subcategory: Repayment

116. **Question:** Can borrowers return funds they know will be in excess or unforgiven without any penalty?

Answer: Yes and the borrower is responsible for accrued interest on the repaid portion of the loan. Any unforgiven portion of the loan may be repaid to the lender at any point in time.

Subcategory: Utilization of Surplus Funds

117. **Question:** Can businesses use unforgiven loan amounts for expenditures as they please? (And just accept the excess funds as a loan)

Answer: No. If you use PPP funds for unauthorized purposes, SBA will direct you to repay those amounts. If you knowingly use the funds for unauthorized purposes, you will be subject to additional liability such as charges for fraud. If one of your shareholders, members, or partners uses PPP funds for unauthorized purposes, SBA will have recourse against the shareholder, member, or partner for the unauthorized use

Subcategory: Inability to Make Payments

118. **Question:** Has guidance been released how to approach a situation where a business cannot repay the unforgiven loan amount?

Answer: Any amounts which the borrower is unable to repay will be handled consistent with existing SBA guidelines for loans in default. Lenders may take legal action against borrowers for repayment.
