Adding and Verifying External Accounts

**Transfer funds from your personal account at American Momentum Bank
to an account owned by you at another financial institution.**

Adding and Verifying an External Account

ADDING AN EXTERNAL ACCOUNT:

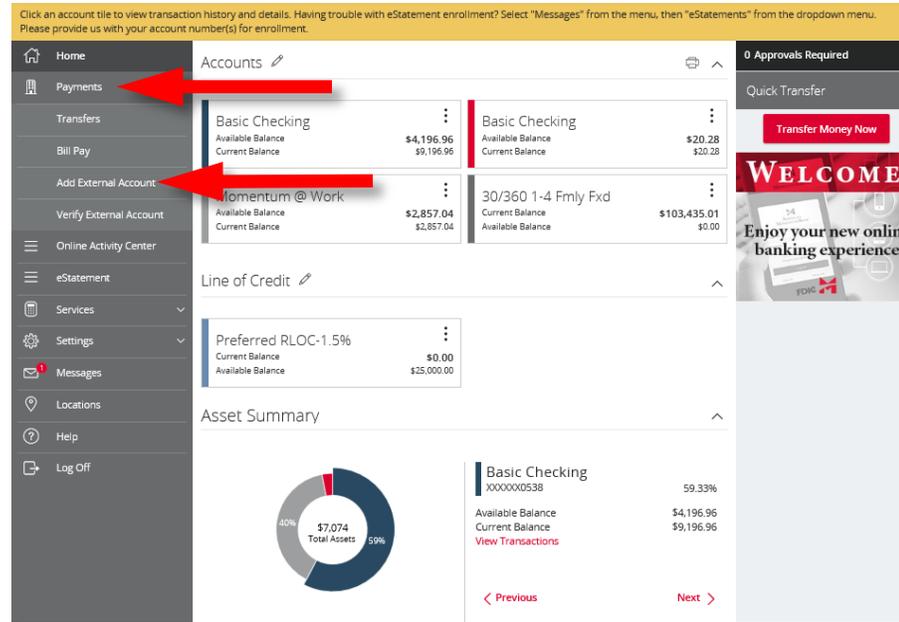

1. From the navigation menu, select 'Payments' then 'Add External Account'.
2. Input the following information in the fields provided for the external account you would like to add:
 - a) Institution's Routing Number
 - b) Your Account Number (Max length of 17 digits)
 - c) Account Type (checking or savings)

Please Note: Only domestic, US bank accounts can be set-up for external transfers.

3. Select 'Continue' to submit your external account for verification.

Two "micro" deposits will be generated and sent to your external account (typically within 5 business days). Micro deposits are random deposits in amounts less than \$1.00. After receiving the two micro deposits in your external account, make note of both amounts as you will need them to verify the external account.

If the micro deposits do not appear in your external account within the specified timeframe, contact the financial institution for your external account to verify the correct routing number as some institutions do not use a single routing number for all account types.
